

Renée Zellweger

Christina Ricci

Katie Holmes

## Short and straight

Lopping off locks seems to be all the rage among Hollywood glam gals.

However, **Renée Zellweger's** chop reportedly wasn't a trendy trim, but a result of irrevocable damage to her do. **Christina Ricci** added fringe to her bone-straight, sculpted style, while **Katie Holmes'** new hairstyle has been getting rave reviews. Was it a move to a more mature mane, or just following in the footsteps of spicy pal **Victoria Beckham**?

Brittany Murphy

Jennifer Connelly

## Short and soft

Screw "straight and severe." These girls are keeping some curve.

**Brittany Murphy's** bob bouncers above the shoulders, softly framing her face. **Jennifer Connelly** keeps her cool feminine with waves, à la a young **Elizabeth Taylor**. **Katherine Heigl's** sophisticated new style should come as no surprise. "I love changing my look," the *Grey's Anatomy* star wrote on her MySpace page. "I would love, love, love to cut all my hair off into a really short, punky haircut." Well, it doesn't exactly scream punk, but it's definitely shorter.

Katherine Heigl

▲ Scarlett Johansson

▲ Avril Lavigne

▲ Cate Blanchett

## Sinful sweethearts

The sweetheart neckline (so-called because the arcs across the breasts resemble the top of a heart) has been popping up more and more as stars keep popping out.

Sweetheart necklines plunged to new depths when **Cate Blanchett** busted out this number (above) at the screening of *Elizabeth: The Golden Age* at the Rome Film Festival. Bellissima!

**Scarlett Johansson** gave her bosom a boost while simultaneously making a simple black dress more romantic. And you don't have to be sweet to wear a sweetheart neckline: punky-pop princess **Avril Lavigne** rocked it out with a retro-looking frock 'n' fishnets.

### IS IT TIME TO DUMP THE CLUMPS?

TO COVER EACH AND EVERY LASH, IT TAKES YOUR MASCARA ABOUT:

- So long you miss your daily bus stop run-in with that Colin Farrell look-alike.
- Enough time to make you late for work, using "traffic" as an excuse.
- No time at all. You're out the door, lashes as lovely as ever.

UPON EXITING THE TUBE, YOUR MASCARA BRUSH MOST RESEMBLES:

- A sitty pipe cleaner.
- A precision instrument, ready to liven up any lashes.
- A mud-covered porcupine.

YOUR GIRLFRIEND USES LASH EXACT. WHEN SHE RAVES ON AND ON ABOUT IT, YOU:

- Pray for her perfect lashes to be singed off in a freak curling iron accident.
- Swipe it from her purse when she's not looking.
- Let her have her moment, proudly knowing that you discovered it first.
